

Regional School Unit 73 Board of Directors	CODE: IJNDB-R Page 1
SUBJECT: Student Computer and Internet Use Rules	
DATE OF ORIGINAL POLICY:	April 3, 1997
DATE OF NEXT REVIEW:	2018
CANCELS POLICY CODE:	None
REVISION DATE:	Dec. 6, 2004; Aug. 2, 2006; Aug. 7, 2008; Jan. 24, 2013
JURISDICTION:	RSU 73 Schools

POLICY: Student Computer and Internet Use Rules

These rules accompany Board policy IJNDB (Student Computer and Internet Use and Internet Safety). Each student is responsible for his/her actions and activities involving school unit computers (including laptops issued to students), networks, and Internet services, and for his/her computer files, passwords, and accounts.

These rules provide general guidance concerning the use of the school unit’s computers and examples of prohibited uses. The rules do not attempt to describe every possible prohibited activity by students. Students, parents, and school staff who have questions about whether a particular activity is prohibited are encouraged to contact the building principal or the Technology Coordinator or Network Administrator.

INTERNET SAFETY

RSU 73 uses filtering technology designed to block materials that are obscene or harmful to minors, and child pornography. Although RSU 73 takes precautions to supervise and monitor student use of the Internet, parents should be aware that the RSU 73 cannot reasonably prevent all instances of inappropriate computer and Internet use by students in violation of Board policies and rules, including access to objectionable materials and communication with persons outside of the school. The school unit is not responsible for the accuracy or quality of information that students obtain through the Internet. In the interest of student Internet safety, RSU 73 educates students and parents about online behavior, including interacting with other people on social networking sites and in chat rooms, the dangers of engaging in “hacking” and other unlawful online activities, and issues surrounding “sexting” and cyberbullying awareness and response.

The Superintendent /designee shall be responsible for integrating age-appropriate Internet safety training and “digital citizenship” into the curriculum and for documentation of Internet safety training.

SUBJECT: Student Computer and Internet Use Rules

A. Acceptable Use

The school unit’s computers, networks, and Internet services are provided for educational purposes and research consistent with the school unit’s educational mission, curriculum, and instructional goals.

All Board policies, school rules, and expectations concerning student conduct and communications apply when students are using computers, whether the use is on or off school property.

Students are also expected to comply with all specific instructions from school administrators, school staff or volunteers when using the school unit’s computers.

B. Consequences for Violation of Computer Use Policy and Rules

Compliance with the school unit’s policies and rules concerning computer use is mandatory. Students who violate these policies and rules may, after having been given the opportunity to respond to an alleged violation, have their computer privileges limited, suspended, or revoked. Such violations may also result in disciplinary action, referral to law enforcement, and or legal action.

The building principal shall have final authority to decide whether a student’s privileges will be limited, suspended or revoked based upon the circumstances of the particular case, the student’s prior disciplinary record, and any other relevant factors.

C. Prohibited Uses

Examples of unacceptable uses of school unit computers that are expressly prohibited include, but are not limited to, the following:

1. **Accessing or Posting Inappropriate Materials** – Accessing, submitting, posting, publishing, forwarding, downloading, scanning or displaying defamatory, abusive, obscene, vulgar, sexually explicit, sexually suggestive, threatening, discriminatory, harassing and/or illegal materials or engaging in “cyber bullying;”
2. **Illegal Activities** – Using the school unit’s computers, networks, and Internet services for any illegal activity or in violation of any Board policy or school rules. The school unit assumes no responsibility for illegal activities of students while using school computers;

SUBJECT: Student Computer and Internet Use Rules

3. **Violating Copyrights** – Copying, downloading or sharing any type of copyrighted materials (including music or films) without the owner’s permission (see Board policy/procedure EGAD – Copyright Compliance). The school unit assumes no responsibility for copyright violations by students;
4. **Copying Software** – Copying, transmitting, accessing or downloading software without the express authorization of the Technology Coordinator and building administrator. Unauthorized copying of software is illegal and may subject the offender to substantial civil and criminal penalties. The school unit assumes no responsibility for illegal software copying by students;
5. **Plagiarism** – Representing as one’s own work any materials obtained on the Internet (such as term papers, articles, music, etc.). When Internet sources are used in student work, the author, publisher, and website must be identified;
6. **Non-School-Related Uses** – Using the school unit’s computers, networks, and Internet services for any personal reasons not connected with the educational program or assignments. Examples of these include, but are not limited, to buying, selling, advertising, spamming, mass unsolicited mail using, etc...
7. **Misuse of Passwords/Unauthorized Access** – Sharing passwords, using other user’s passwords, and accessing or using other user’s accounts;
8. **Malicious Use/Vandalism** – Any malicious use, disruption or harm to the school unit’s computers, networks, and Internet services, including but not limited to hacking activities and creation/uploading of computer viruses; and
9. **Unauthorized Access to Blogs/Chat Rooms/Social Networking Sites** – Accessing blogs, chat rooms or social networking sites (or any websites) to which student access is prohibited.

D. No Expectation of Privacy

RSU 73 computers remain under the control, custody, and supervision of the school unit at all times. Students have no expectation of privacy in their use of school computers, including email, stored files, and Internet access logs.

SUBJECT: Student Computer and Internet Use Rules

E. Compensation for Losses, Costs, and/or Damages

The student and his/her parents are responsible for compensating the school unit for any losses, costs, or damages incurred by the school unit for violations of Board policies and rules while the student is using school unit computers, including the cost of investigating such violations. The school unit assumes no responsibility for any unauthorized charges or costs incurred by a student while using school unit computers.

F. Student Security on RSU73's Networks

A student is not allowed to reveal his/her full name, address or telephone number, social security number, or other personal information, like self-portraits, on the Internet via the district's networks, without prior permission from a teacher and a website publishing form. Students should never agree to meet people they have contacted through the Internet without parental permission. Students should inform their teacher if they access information or messages that are dangerous, inappropriate, or make them uncomfortable in any way. Internet blocking and filtering are present in all networks but are not a guarantee to prevent all intrusions.

G. Network System Security

The security of the school unit's computers, networks, network devices and Internet services is a high priority. Any user who attempts to breach system security, causes a breach of system security, or fails to report a system security problem shall be subject to disciplinary and/or legal action in addition to having his/her computer privileges limited, suspended, or revoked. Any student who identifies a security problem must notify his/her teacher immediately. The student shall not demonstrate the problem to others or access unauthorized network device material.

Students who wish to bring unauthorized electronic devices (devices not registered on the districts's networks like personal laptops, ipods/ipod touches, mobile phones, ipads, tablets, tablet pc's) and attempt to use them on the RSU73 networks will be denied access. See your Network Administrator about registering personal network devices.

H. Additional Rules for Laptops Issued to Students

1. Laptops are loaned to students as an educational tool and are only authorized for use in completing school assignments.

SUBJECT: Student Computer and Internet Use Rules

2. Before a laptop is issued to a student, the student must sign the school's "acceptable use" agreement. Parents are required to attend an informational meeting before a laptop will be issued to their child. Attendance will be documented by means of a "sign in" sheet. The meeting will orient parents to the goals and workings of the laptop program, expectations for care of school-issued laptops, Internet safety, and the school unit's rules in regard to use of this technology.
3. Students and their parents are responsible for the proper care of laptops at all times, whether on or off school property, including costs associated with repairing or replacing the laptop.
4. Loss or theft of a laptop must be reported immediately to the building principal, and, if the laptop is stolen, to the local law enforcement authority as well.
5. The Board's policy and rules concerning computer and Internet use apply to use of laptops at any time or place, on or off school property. Students are responsible for obeying any additional rules concerning care of laptops issued by school staff.
6. Violation of policies or rules governing the use of computers, or any careless use of a laptop may result in a student's laptop being confiscated and/or a student only being allowed to use the laptop under the direct supervision of school staff. The student will also be subject to disciplinary action for any violations of Board policies or school rules.
7. Parents will be informed of their child's login password. Parents are responsible for supervising their child's use of the laptop and Internet access when in use at home.
8. The laptop may only be used by the student to whom it is assigned and by family members, to the extent permitted by Maine's laptop program.
9. Laptops must be returned in acceptable working order at the end of the school year or whenever requested by school staff.

SUBJECT: Student Computer and Internet Use Rules	

IMPLEMENTATION OF IJNDB POLICY AND “ACCEPTABLE USE” RULES

The Superintendent/designee shall be responsible for implementation of this policy and the accompanying “acceptable use” rules. Superintendent/designee may implement additional administrative procedures or school rules consistent with Board policy to govern Internet access and the day-to-day management, security and operations of the school unit’s computer and network systems and to prevent the unauthorized disclosure, use and dissemination of personal information regarding minors.

Students and parents shall be informed of this policy and the accompanying rules through student handbooks, the school website, and/or other means selected by the Superintendent.
